I don't really like fantasy games (or at least not the standard ones), but I figured this might be a decent alternative. I gave it a try and after I beat the main story, I realized this game really did appeal to me and that I was in for some fun. We've already seen quite a bit of the game now and there's still more to come, so let's see what we've learned so far. Game:- This is one of the few fantasy games I've played where you're given more than just 15 minutes to finish the main story- I was extremely impressed with the gameplay. It's not quite the "No Man's Land" style of gameplay, but it is engaging and action-packed. The combat is great (and easy), especially if you go with tanking as your play style- I love how there are a bunch of different areas and environments. Never does it get boring to travel around the map, since there's always something to do.- The first playthrough took me around 6 hours or so, and I didn't finish it all. I'm planning to replay the game, since the second playthrough is different than the first- My big question has to be about the character building and upgrades, though.- Overall, I really enjoyed the story and the amount of work that's put into developing this game. The art is also pretty incredible. I wish
