[Production of polyclonal antibody against Anabaena sp. PCC 7120, and identification and application of recombinant antibacterial protein]. To study the expression, purification and application of antibacterial protein of Anabaena sp. PCC 7120 in Shandong industrial park. The cloned gene of the secretory protein was expressed by prokaryotic expression system Escherichia coli BL21. The protein was purified by Nickel ion affinity chromatograph (Ni-NTA), and its antibacterial activity against gram-positive Staphylococcus aureus and gram-negative Escherichia coli was identified. The recombinant protein was used as coating antigen to develop enzyme-linked immunosorbent assay (ELISA). SDS-PAGE and Western blotting showed that the molecular weight of the recombinant protein was about 25 kDa and a single band was expressed after purification. The purified recombinant protein could kill the pathogen strains through mechanical damage of the cell membrane. The recombinant protein also could inhibit the growth of pathogenic bacteria and destroy the cell membrane. The polyclonal antibody against recombinant protein could be used in further identification and application.Q: Extending Django Admin to add an extra field I want to extend Django Admin to add a field to a model, or even a tab in the admin page. I want the user to be able to browse the models and see the new field appear in the list like they can the models they see. How can I do this? A: You can use the m2m_changed or m2m_added signals to add a field to the admin's list view. The m2m_* signals will be triggered by add_*, change_*, delete_*, and delete_related methods of the AdminForm, M2MAdminModelAdmin, M2MAdminSiteAdmin, M2MAdminModelAdmin, and M2MAdminSiteAdmin classes. Now, you would probably want to add the field(s) to the list of fields in each model and then have some sort of context processor that would detect the change and trigger the signal. In order to increase the efficiency of operation in electric vehicles and hybrid vehicles, which utilize a high-voltage battery as a power source, the electric vehicles and hybrid vehicles may be driven at a voltage close to a rated output voltage of the battery, that is, a
