. as there can be several physical roads to a certain point, only one of
them will be labeled as a destination. By default, the map shows only the
physical roads that connect the node. IPGOS major roads, train nodes,
bus nodes, and ferries. Another possibility is to use a query tool that is
based on an SQL syntax. Only the last used query tool for each node is
available in the map. iGo Prime: POIs, 3D Buildings, Traffic, street maps
