August 2, 2020 - [quote='nicu_cuc' pid='1675136' dateline='1581072874'] New Autocom 2017.01 (hex2stuff) Please don't PM me! Or at least write a message not according to the template, but in the subject! [/quote]
Too late to read about templates. I already bought it, and even everything has already been downloaded and even installed already. But there is one BUT. If I understood everything correctly, then we now need to put this file in a folder, and only then everything will work. Do not tell me how to do all this correctly? Otherwise, I'm a total noob in the autodoc.
