In this new book, *Mastery*, experts share their experience and wisdom of deep heart and mind. This is the book about how to go all the way inside. It is like a manual for accessing the riches of the fullness of the holy available to you in this lifetime. The authors show how to go deep, in ways far beyond normal conscious. This book is for people who are looking to accelerate their growth and take the next step to genuine mastery. It will teach the reader how to access his or her own mastery, give direction in the process, and teach others how to do the same. In his latest book, the visionary philosopher J. Krishnamurti shares a vision for a future world guided by the power of love. In this book, Krishnamurti shares his view of what the world will be like in a future world run by the power of love. How can I make sense of a world of people whom I have never met? What inspires me to act? How do I develop a profound and loving sense of what is right and what is wrong? How can I know what to do and say at the precise moment I must act or speak? How can I learn to rest in the presence of God, or some mysterious power, and trust that my heart knows what is happening? Krishnamurti's answer to these questions and many more is contained in this book. In his book, *The Gateway to the Heart*, Larry G. Mills explains how the heart can be used to access the Infinite Power with which we are already connected. The most important gateway of the heart is unconditional love, and in this book, Mills lays out the psychological and spiritual methods that can be used to learn to love and connect with the powerful energy of oneness, spiritual enlightenment and joy.
