Smart Hindi Typing Tutor is an application that provides support for learning touch typing method for those who have to type in Hindi or other Hindi language characters. Provides a simple but effective way of practicing typing in Hindi Ensures a smooth learning curve and complete control over the exercises An easy to use interface for accessing the lessons and practicing typing After a short installation procedure, the program is ready to run and users can meet the simple GUI in a couple of moments. The looks of the software may be less polished and it tries to compensate through practicality and ease of use. The functions are at hand and accessible, so even less experienced users can have an easy time working with it. The exercises are accompanied by instructive images, so it should be quite simple to understand the requirements and proceed accordingly. Numerous lessons that ensure a complex training Smart Hindi Typing Master comes with an impressive pack of exercises that are joined into several lesson groups. Selecting any of the items from the course menu will enable users to verify and improve their typing abilities. A progress chart and a timer are shown during most exercises, so some of the feedback is immediate. When the exercise is complete or if the user decides to finish it earlier, a summary will appear and it contains details like the gross speed, accuracy or the net typing speed. A complete package for learning and improving touch typing in Hindi All things considered, Smart Hindi Typing Tutor seems to be a good tool to start with and the many exercises and word games it comes with can certainly be of assistance when it comes to practicing a specific kind of typing. The only part of this movie I liked was the intro music, the rest was just awful. The dialogs were so bad I almost fell asleep. And the whole sequence about the 'bright light' was impossible to watch. Really horrible! It is a shame that the major part of the sound was cut off. I did not like the movie, but I did not think it was that bad either. Maybe the producers realized that they could not market the movie on its own because it was a remake and that they should market it as such. That is what a lot of remakes are today. They have great soundtracks and then dub it. The only part of this movie I liked was the intro music, the rest was just awful. The dialogs were so bad I almost fell asleep. And the whole sequence about the 'bright light' was impossible to watch
